

RESPONSIBLE CORPORATE SOLUTIONS

The Electronic Equipment We Accept
and Do Not Accept for Safe Disposal

RAE is a comprehensive electronics recycling company that takes pride in its ability to process an extensive range of electronic equipment. With state-of-the-art technology and highly trained professionals, RAE can handle everything from across all industries.

The company's commitment to responsible recycling practices means that all devices are processed with the utmost care for the environment, ensuring that no hazardous materials end up in landfills or other unsafe locations.

As a full-service electronics recycling company RAE maintains the ability to process a wide variety of equipment. Below you will find a list representing some of the most commonly recycled items that we accept, however this list is not all inclusive.

Please [contact us](#) with any questions regarding the equipment we recycle.
